## WORK EXPERIENCE

### FRONT-END DEVELOPER

KUKUI CORPORATION / January 2017 - Present

#### *Job Description:*

- Developing responsive websites in the automotive industry;
- Bringing mock-ups to life using HTML/CSS/Bootstrap/jQuery;
- Optimizing websites for best performance;
- Testing to identify bugs and technical issues before and after deploying;
- Creating email templates for email campaigns;
- Maintaining an organized workflow using a version control system (like SVN);
- Fulfill customer requests related to the website during the development process;

#### *Portfolio:*

I've developed 130+ websites based on a .NET platform. Due to company policy, I don't own the rights of the websites and I'm not allowed to use them as my own, but I can provide links to few of them:
